

Canço dels Faidits
Song of the Dispossessed

When all seems lost
And we are desperate
When dreams turn to ashes
Reality becomes a nightmare
When hope disappears
When comradeship is shattered
And the world is lost
As paratge is strangled....

Refrain: From behind the clouds a light will shine
Over the world. Despair will turn to hope,
Before your eyes a pathway
Will open in rays of radiant sunlight.

And when we lose our homes
And seek shelter in caves
When they hunt us like animals
Rape our women
And blind our brothers
Uproot our olive trees
And poison our wells
And would burn the truth....

Refrain: From behind the clouds a light will shine...

When fear overtakes us
Nothing seems possible
We forget our way
Courage fails us
It's then we must hold firm
To let our hearts dictate
the quality of our response
And know fully that...

Refrain: From behind the clouds a light will shine
